WINE LIST

ARMENIAN

BAR - RESTAURANT - LOUNGE

We are delighted to present our comprehensive Wine List, marking a significant milestone for Armenian Taverna since its establishment in 1968. In celebration of our 58th anniversary in 2026, and following our recent expansion and rebranding, we have launched this expanded list to offer you a complete and authentic taste of Armenian Cuisine professionally paired with Armenian wines.

The Wine List has been curated by our wine consultant Zara Serobyany WSET, a specialist in wines from Off-Beaten Path Countries such as Armenia and Georgia. Most of the wines she has selected herself in Armenia through a very diligent and careful process. Each entry in the list includes insights into the wines, and we are happy to answer any questions you may have.

Our selection features a wide range of wineries and exquisite, award-winning wines that complement our cuisine: from one of the oldest wineries of Armenia - Voskevaz established in 1932, to modern boutique wineries like Van Ardi, and smaller artisan producers such as Krya, Rikars and Old Bridge.

Armenia has an incredible history in winemaking, from bible to archaeological evidence. With over 6100 years old first winery in the world Armenia can rightfully be considered to be the heart of cradle of winemaking.

Most wines on our list are made from indigenous Armenian grape varieties. Look for our special markers for more information on these wines, and feel free to ask for pairing suggestions.

Traditional Armenian winemaking often involves fermenting and aging wines in karas (clay amphora). Look for the karas symbol and read on how and to what extent the wine has been made in karas.

Do not miss our authentic organic Armenian pomegranate wine and dessert wines.

We hope you enjoy the wines we have lovingly selected.

Zara Serobyany, WSET
